THE FULLHART NURSERY

Muncie, Indiana

"True-to-Name" Trees and Plants

For almost a century The Fullhart Nursery has been growing General Nursery Stock.

Our reputation has been known for many years past for accuracy in True to Name Trees, Plants, Shrubbery and General Nursery Stock.

We grow only the most dependable varieties that we have tried out and found to give reliable results in the Central States.

We take great pleasure in giving satisfaction to our customers, giving as good trees and plants as experience and skill can produce, and at as low a price as we can afford to raise good choice stock.

Almost all of our stock we sell we grow here in our own nursery, fresh from the soil.

We do not hold nursery stock in cellars during the fall, winter and early spring months, of which we have found out greatly lessens the vitality of trees and plants, our stock is left in the nursery rows where it is grown or dug early in the spring and heeled in ground for immediate delivery.

COME AND MAKE A PERSONAL SELECTION

We would like for you to come to the nursery and make a personal selection of nursery stock, since we now have good roads and automobiles, you can drive several miles, select your trees and plants; fresh dug from the soil and return and have them planted the same day; by so doing you should have complete success. Not like having trees shipped a great distance and having the roots drying out on the way.

OUR GUARANTEE

Our nursery stock is guaranteed True to Name, and up to grade and quality.

The Nursery is inspected annually by the State Entomologist.

We give the greatest of attention in labeling stock, but if any stock proves untrue to name or label we refund purchase price or replace stock upon proof of error.

The successful growth of a tree or plant is de-

pendent upon many conditions over which the nurseryman has no control, viz: the planting, the cultivating and maintenance; the weather, the fertility of the soil, the rainfall, etc. We endeavor to exercise every care that will cause our stock to transplant successfully, and that it leaves our nursery in good healthy condition, but we cannot guarantee tree or plant to live.

Visitors are welcome at all times to inspect and make a selection of stock at nursery.

We do not dig nor sell nursery stock on Sunday.

STANDARD VARIETIES

Early Richmond or May	Montmorency
Dye House	

SWEET VARIETIES

Governor Wood	May Duke

Ponoma (heaviest yielding red)		
London Market (red)		

ORNAMENTAL

For the last several years we have given special attention to the ornamental department of our nursery. The larger majority of people are awakening to the fact of the value of beautiful surroundings around their homes as well as public grounds.

It does not cost much to beautify your home grounds and with the proper planting of trees and flowering shrubbery and with two or three years growth will greatly enhance its value. There is no home in the city or country but what the surroundings could be made artistic by the proper arranging and planting of ornamental trees, flowering shrubs, vines, shrubs, roses, evergreens, etc.

If you are interested in landscape planting "do not fail to see our line of ornamentals, as we grow only the leading dependable varieties. If you do not know how to arrange the planting of your grounds, let us help you.

We have many other items not included herein
Call or write us for anything in the nursery line
in which you may be interested.

Don't forget that we have no stock in cellars,
but every thing is dug fresh from the soil.

EVERYONE LOVES NATURE

And beautiful surroundings, but some are at a loss in knowing just how to arrange the plants. Call our Landscape Department and let us help you to plant the finishing touches of beauty on your home.

It's Not a Home Until It's Planted

What natural places of beauty can be made from these barren unsightly places with just a formal planting of ornamentals, which greatly increases its value. The Home and its surroundings are wonderful influences in shaping the lives and destinies of boys and girls.
